

Announcing new standards for image processing.

COMTAL's new low cost, standard systems

COMTAL leads the way again. Now, COMTAL offers standard versions of its Vision One/10 and Vision One/20. For as little as \$33,250, you can have a full-scale, real-time digital image processing system — with delivery in less than sixty days!

Price and delivery breakthroughs

COMTAL's new standard systems, the Vision One/10-M6 and the Vision One/20-M8, represent major breakthroughs in price and delivery for digital image processors. Because of COMTAL's continuing technical leadership in the industry, vigorous expansion in the market, and the economies of scale through expanded manufacturing facilities, only COMTAL can make this kind of offer.

Large-scale features

COMTAL's new standard systems perform maturely. Each can operate as a real-time, stand-alone or host-interfaceable system. Each provides real-time roam and zoom, pseudocolor processing, and contrast stretching. Even the operating systems are standard! The Vision One/10-M6 is a compact, table-top system. The Vision One/20-M8 is a more powerful system with a larger memory capacity, a second user channel capability, and a broader range of options.

From the leader

With these new, economical standard systems, COMTAL advances its tradition of innovative leadership in image processing. Only COMTAL can offer this combination of performance, price and predictable delivery. Check it out.

With the cost of digital image processing lower than ever before, isn't it time to explore how digital image processing can help you? Call or write today and learn how you can have a new standard for your image processing and analysis needs.
